

Important Notes

- You should consider your own risk tolerance level and financial circumstances before making any investment choices or investing according to the Default Investment Strategy. When, in your selection of funds or the Default Investment Strategy, you are in doubt as to whether a certain fund or the Default Investment Strategy is suitable for you (including whether it is consistent with your investment objective), you should seek financial and / or professional advice and choose the investment choice(s) most suitable for you taking into account your circumstances.
- In the event that you do not make any investment choices, please be reminded that your contributions made and / or accrued benefits transferred into the Plan will be invested in accordance with the Default Investment Strategy, which may not necessarily be suitable for you.
- Your investment decision should not be based on this document alone. Please read the MPF Scheme Brochure for BCT (MPF) Pro Choice for further details including the risk factors.
- BCT (Pro) MPF Conservative Fund does not guarantee the repayment of capital. An investment in the MPF Conservative Fund is not the same as placing funds on deposit with a bank or deposit taking company and there is no obligation to redeem the investment at the subscription value. The MPF Conservative Fund is not subject to the supervision of the Hong Kong Monetary Authority.
- Members should note that BCT (Pro) Asian Income Retirement Fund does not provide any guarantee on capital or investment return or dividend yield, and their investments therein (including dividends distributed) are subject to the same vesting, preservation and withdrawal requirements applicable to mandatory and voluntary contributions (as applicable). The BCT (Pro) Asian Income Retirement Fund may pay dividends out of net distributable income and/or capital, which will result in an immediate decrease or adjustment in the net asset value per unit of the fund. The payment of dividends (if any) will involve an investment time-lag and is subject to out-of-market risk. There is no assurance on the dividend distribution frequency and the dividend amount/yield may fluctuate.
- Investment involves risks. Past performance is not indicative of future performance. The price of constituent funds may fall as well as rise.

Shaping TOMORROW With You NOW

Consolidate your MPF assets with BCT

As Low As 0.75%

A Wide Variety of Fund Choices With
Award-winning Performance*

Comprehensive ePlatform Keeps You
Abreast of Your Account Status

Best-in-class Customer Service
in the Industry

Terms & Conditions of the Offer:

- If the total net asset value in your personal account does not reach the specified level, certain constituent funds may not offer preferential management fee. Besides the fees and charges of the constituent funds, members should consider if the funds' risk level, investment strategy and fund expense ratio fit your investment needs.
- Management fee will only be deducted from the MPF Conservative Fund ("MCF") by BCT when the investment return of the MCF for the month exceeds the monthly prescribed saving rate ("PSR") announced by the Mandatory Provident Fund Schemes Authority. Accordingly, the preferential management fee is indirectly subject to this statutory fee deduction mechanism, i.e. if the investment return for the month exceeds the PSR and if the average management fee charged for the month exceeds the above preferential management fee, the bonus unit rebate for the month will be distributed at the end of the corresponding quarter. The average management fee mentioned in this paragraph is calculated by averaging the daily accrued management fee.
- From now on to 31 May, 2022, members who submit the applications, successfully transfer their MPF assets from other MPF schemes (schemes that are not BCT (MPF) Pro Choice or BCT (MPF) Industry Choice) to personal accounts of BCT (MPF) Pro Choice, and invest in the constituent funds under BCT (MPF) Pro Choice can enjoy a preferential management fee from 0.75% to 1.38% (per annum of net asset value) of the relevant constituent funds. Details of the preferential management fee are set out in the table above.
- If members currently enjoy other management fee offers or if there are any changes regarding the standard management fee, BCT will charge the management fee, whichever is lower.
- Members should refer to the MPF Scheme Brochure for the BCT (MPF) Pro Choice for further details, including the constituent funds classification, management fees, other fees and charges and risk factors.
